EMPLOYEES CONTRIBUTION

There is a hidden talent in everyone! Let's have a look at the secret skills of our employees!

A boy and a girl were playing together. The boy had a collection of marbles. The girl had some sweets with her. The boy told the girl that he will give her all his marbles in exchange for her sweets. The girl agreed. The boy kept the biggest and the most beautiful marbles aside and gave the rest to the girl. The girl gave him all her sweets as she had promised. That night, the girl slept peacefully. But the boy couldn't sleep as he kept wondering if the girl had hidden some sweets from him the way he had hidden his best marbles.

Moral of the story: If you don't give your hundred percent in a relationship, you'll always keep doubting if the other person has given his/her hundred percent... This is applicable for any relationship like love, employer-employee relationship etc.

Give your hundred percent to everything you do and sleep peacefully.

Ae kagaz btane chli hu khani apni,
Tere reshmi badan pr chlane lgi hu
talwar apni,

Ek ladke se ho gayi mohabbat mujhe,
Ae khuda kaise karu shukriyada tujhe,
ab us ke sath jeena aur usi ke sath
marna hai mujhe.

Ae zindagi tu hai meri, pr krna hai uske
name tujhe

Ae kagaz btane chali hu khani apni....
Chla gya vo mujhe todh ke,
Sunsaan raste pe akela chod ke,
Ab na jee paungi uske bina,
Na reh paungi uske bina,
Kiya usne mere sath aisa, jise samjha
tha khuda apna, nikla vo shaitan jaisa

Ae kagaz btane chli hu khani apni....
Ab na uska khyal ata hai, aur ratto ko vo
stata hai,

Smay ke sath sab badal gaya,

Mile kuch dost aur ashiyan banta gaya...

Ae kagaz btadi mene khani apni,

Likh diya tere badan par kahani apni

CRAZY CODING FACTS

BY - Sunny Negi

1. Define programmers

The mythical creatures who solve all the problems of lesser mortals without having to move from their desks.

2. Oh! the excitement of new projects

Every time there is a new project, we programmers swear to ourselves that we will code it better this time. We get elated that we do not have to deal with the tech debts piled up in the old module.

Give a few days, and you will find us copying the code from the old module in the name of code reuse and tight deadlines.

3. Each programmer is a poet at heart

Programmers are like God. We create defects and also kill them too. We spend the whole day fixing a defect, and the patch itself gives birth to a few more defects of its own.

And — when we are waiting for our codes to compile, we scribble some poems :D.

4. Compiler is the best friend of a coder

Without a compiler, most of us will not be a programmer. Ok, now don't bring up the interpreter story.

How much ever we dread the compiler, it is still our best friend who makes sure we clean up our mess before moving the code to the server.

5. Proud developer

Without google, most of us will not survive for six months in the profession of software development.

Hence, when we write ten lines of code without having to copy-paste from anywhere, we feel like we moved a mountain with our bare hands.

Kuch aise hai jazzbaat mere..
na likh sakta hu, na hi padh sakta hu,

koi de de pathar mujhe agar,

mai tab bhi aage badh sakta hu,

Kuch aise hai jazzbaat mere..
na likh sakta hu, na hi padh sakta hu,

khtam hone ko ho Saans yeh,
paas na rahe koi bhi hall,
mai tab bhi Parvat Chadh sakta hu,
dharmo mein Fasien hai sab,
insaniyat ke liye kar aage apni dhadh

Kuch aise hai jazzbaat mere..
na likh sakta hu, na hi padh sakta hu,
